Response to Amendment

This office action is in response to the amendment filed on 05/05/2004.

Claims 18-21, 24-25 and 27-32 are pending for examination, claim 1-17, 22-23 and 26 has been canceled, claim 28 has been amended.

EXAMINER'S AMENDMENT

An examiner amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven H. Slater on May 28, 2004.

AMENDMENT

To the Amendment D received on 05/05/2004:

On page 6, Claim 32, line 1, change the phrase "Word" to "word processing".

Application/Control Number: 09/511,476

Art Unit: 2171

The following is an examiner's statement of reasons for allowance:

Claims 18 and 27 are allowable because the prior art on record or that encountered in searching for the invention, fails to disclose or suggest the features of instant invention – a template selector includes a statistic comparison routine for outputting statistic information of a specific event; a weight evaluation selector for selecting each template with conditions met by the statistic; and an article creator routine that receives the selected template as input, wherein the selected template comprises a body of text having function calls to call out for specific statistics as output to be inserted in place of the function calls in a combination as claimed by applicant.

Claim 28 is allowable because the prior art on record or that encountered in searching for the invention, fails to disclose or suggest the features of instant invention – to publish and insert at lest one of the recorded events into an appropriate location in an article template to generate a game-specific, text-based, narrative description of a game based on the successful determination of the first conditional requirement is satisfied by the final score differential.

Claims 19-21, 24-25 and 29-32 are respectively depend on claims 18, 27 and 28 therefore are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Application/Control Number: 09/511,476

Art Unit: 2171

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
